

Catalog of Enterprise Systems

Inland Empire Resource Conservation District

Updated April 2017

Pursuant of the California Public Records Act (Senate Bill No. 272), IERCD discloses its “Enterprise systems”, meaning software applications or computer systems that collect, stores, exchange, and analyze information that the agency uses that are both of the following: (A) A multidepartmental system or a system that contains information collected about the public, and (B) A system of record.
